

New Utility Improvement Projects page

Posted: Aug. 1, 2025

The Village of Tinley Park has a new webpage at www.TinleyPark.org/UtilityProjects where residents can see information on current utility improvement projects occurring across Tinley Park that may impact them.

Residents are invited to visit the page to see maps of the project area and contact information for the utility company performing the work. To inquire about a particular project, please contact the appropriate utility company listed in the file for that project.

If you're a member of a Homeowners Association Board and are willing to provide your contact information, you can also complete a form to allow the Village to reach out if there are any questions or concerns regarding private utility work in your neighborhood.
