

Village donates AEDs

Posted: Nov. 10, 2025

The Village recently donated Automated External Defibrillators (AED) to the Tinley Park Bobcats and Tinley Park Bulldogs to help ensure safety during practices and games.

“We take great pride in supporting the Tinley Park Bulldogs and Bobcats,” Mayor Glotz said. “I and many members of the Village Board have had children play in both organizations, so we understand their importance. When these exceptional groups reached out for assistance, the Village was quick to respond. It’s all about our ongoing commitment to always prioritize children, coaches, fans, and Tinley Park.”
