Overnight Parking Policy Summary

There is a significant overuse of the overnight parking allowance by a number of residents, with some individuals exceeding 100 overnight parking requests per year. Many residents neglect to follow the policy by not requesting permission to park on the street. This pattern indicates abuse of the current policy and highlights the need for stronger controls, clearer limits, and better enforcement tools.

Current Ordinance

§ 73.09 ALL NIGHT PARKING.

It shall be unlawful to park a vehicle on any street within the village between the hours of 2:00 a.m. and 5:00 a.m. on any day of the week.

Proposed Ordinance

§ 73.09 ALL NIGHT PARKING.

It shall be unlawful to park a vehicle on any street within the village between the hours of 2:00 a.m. and 5:00 a.m. on any day of the week. The provisions of this section shall not apply to residents who submit an approved request to the police department for permission to park on village streets necessitated by unexpected circumstances such as driveway repairs or overnight guests. Residents may be permitted no more than ten (10) nights of overnight parking exceptions per calendar year per address, unless prohibited by other sections of the Code. Violators may be issued a ticket and shall be subject to fines for each night exceeding the maximum number of nights permitted.

Fine Increase from \$25 to \$50

Proposed Options and Improvements

- Allow residents to purchase a limited number of additional overnight parking days (5–10 maximum) for a fee of \$5–\$10 per day.
- Provide a printable temporary parking decal to be displayed in the vehicle windshield to reduce complaints and improve enforcement clarity.
- Implement system controls to prevent abuse, including:
 - Automatically blocking additional requests once a vehicle or household reaches the maximum allowed days.
 - Tracking usage by license plate and household address.
 - Flagging repeat or excessive users for administrative review.

Key Takeaway

Discuss implementing purchase limits, visible permits, and automated system restrictions to increase fairness, reduce complaints, and prevent ongoing abuse of the policy.

Subject: Purchase of Police in-car video equipment, storage, warranties, and accessories.

Staff is requesting approval to purchase thirty (30) replacement police in-car video (dash-camera) systems utilizing the Getac in-car video platform. The Village's existing in-car video system is nearing the end of its supported lifecycle, with vendor support scheduled to expire in 2027, and replacement at this time will ensure continued operational reliability and compliance with evidentiary and security standards.

The proposed Getac in-car video system provides several enhancements over the current platform. Video storage will transition from on-premise servers to a secure cloud-based environment, reducing the Village's internal server footprint and associated maintenance requirements. The system will operate on the same platform as the Village's body-worn cameras, allowing in-car and body-camera video and audio to be synchronized and presented as a single, integrated evidence stream. The proposed solution also includes a five-year comprehensive hardware warranty.

To ensure the most competitive pricing, the Village issued a public Invitation for Bid for the in-car video replacement. Midwest Public Safety was selected as the lowest cost responsive and responsible bidder.

The total cost for thirty (30) in-car video systems is \$186,090.00. Funding for this purchase is included in the approved FY26 Capital Improvement Program via the account 77-00-000-74604
